Comments to improve course

I wish doing the readings paid off more. I also wish that, in order to have created a more intellectually stimulating environment, not all points raised by students were encouraged (ex: when they were untrue or didn't make any sense). Also, too much paper was printed out for the purpose of this class!! All in all, however, I enjoyed the class and learned!

AMAZING PROFESSOR. VERY VERY DEDICATED. I have never seen a professor so dedicated as Prof. Valente. She is the real deal.

Overall, Professor Valente is a great teacher. It was an introductory course so she was very thorough in covering all of the basics before jumping into the more complex topics. She also kept class interesting and the in-class assignments were very good reinforcements of the material learned in the powerpoints. The homeworks were also very helpful for the final assignment and very helpful in breaking down a large project into smaller steps. The course consisted of a huge survey project, but it never felt overwhelming because Professor Valente gave us plenty of time throughout the semester, broke down the project into smaller pieces, and helped guide us through the steps. It would have been helpful to maybe have a few more reminders for things (like days when we were meeting in the computer lab or when there was an online assignment). And it would have been helpful to have a very detailed grading rubric for written assignments. However, as a whole, the class was very organized and ultimately very interesting as well, even for a non-PAF major.

the class was great and a really awesome and efficient learning experience

Very knowledgeable about the subject matter and very honest when it came to feedback and improving one's (mine) learning. Super supportive and attentive. Most of all Professor Valente was fair. Happy to have meet her and willing to take her next class.

This course was awesome.
